

Adding an Extension

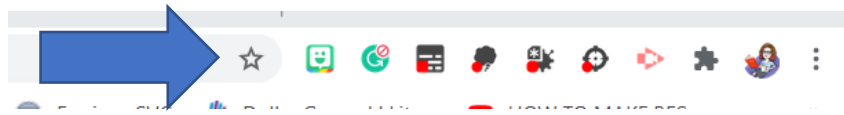

Your teacher may ask you to add a Google Chrome Extension. Chrome Extensions are “mini applications” used to enhance your browsing experience with Google Chrome browser.

Important: You can't add extensions when you browse in Incognito mode or as a guest.

1. Open the [Chrome Web Store](https://chrome.google.com/webstore/category/extensions):
<https://chrome.google.com/webstore/category/extensions>
2. Find and select the extension you want.
3. Click Add to Chrome.
4. Some extensions will let you know if they need certain permissions or data. To approve, click Add extension.

Important: Make sure you only install extensions that your teachers ask you to install. Many extensions will be blocked by our district.

To use the extension, click the icon to the right of the address bar.

*The district may block some extensions. Online add extensions that your teacher has approved!
